**Teacher**- Well done! Thank you for your answers.

### 5. Проверка домашнего задания

**Teacher**- Nowadays TV became so popular that we cannot even live without the blue screens of our TV-sets and almost everybody has its own favourite TV channels, films, actors or actress. Our students prepared projects. We are ready to listen to you.

**Medina:** Living in the contemporary world is impossible without admiration for somebody. Almost every one of us finds a person to admire or be an example for us. We try to learn and copy the strongest traits of his character and some unique features, which can be useful in our everyday life. I believe that

there were and still are people, who can be wonderful examples to follow. As for me, a woman, who I can call my idol, is Angelina Jolie – is an American actress, filmmaker, and Goodwill Ambassador.

She is famous for her off-screen romances; Jolie has been married three times. The longest marriage was with an actor Brad Pitt. They started secretly dating while Pitt was married to Jennifer Aniston. This characterizes her as frivolous person. I suppose it was influence of age. They have three adopted (two boys and one girl) and three biological (a girl and the twins (a girl and a boy) children. She supposes that there are no differences between the natural children and the adopted children. Jolie has proved herself brilliantly adept at juggling her many roles — and hopefully will continue to do, for many years to come. She is an example of a contemporary woman and each of us needs to have such an idol to admire and take example of.

**Teacher:** Thank you very much for your interesting project ! I know that Naida wants to talk about her interesting TV programme!

**Naida:** Television has become an essential part of our daily life. It gives us much useful and interesting information. It makes a great opportunity for education and entertaining. Television keeps us informed about the current events in the world.

Nowadays it offers a wide variety of channels and all kinds of programmes and films which are able to satisfy any taste and any age. Besides, thanks to satellite TV, we can

watch channels from different countries. According to the statistics data, the most regular TV viewers are housewives, pensioners and children. My grandmother, for instance, is very fond of Russian long-running sagas and Brazilian soap-operas which always have a happy end. She finds them quite relaxing. As for me, the story lines in those soap-operas seem unreal and too dramatic. My grandfather loves all news programmes and documentaries devoted to our history. When my mum stays at home she prefers watching different women's talk-shows, concerts, quiz-shows or reality-shows.

And now I really enjoy a fantastic vocal talent show “Voice” presented by Dmitriy Nagiev. It started in 2012 and is broadcast every weekend. The format of “Voice” differs from other traditional music contests because the participants are already professional singers with fabulous vocal capabilities. The judges (Alexander Gradskiy, Dima Bilan, Pelageya and Leonid Agutin) evaluate the contestant's voices and make decisions without looking at the singers, through a blind audition process. As soon as the judges have formed their teams they start competing with each other. Eventually only one singer will be honoured the grand prize and become “The vest voice”. Luckily I am not a TV addict and I don't spend all my leisure time in front of the so called “one-eyed living-room monster”. However I do my best not to miss my favourite programmes.

**Teacher**-Thank you for such interesting projects. They were very interesting.

## 6. Аудирование

**Teacher**-And now my dear students it is time to listen to the text. Be attentively. You are to do exercise below. (Учащиеся просматривают видео ролик и выполняют задание)

**Teacher:** Fill in the missing words!

1. My mother says that I ... too much.
2. ... make me laugh.
3. On Saturday afternoons we like to ...
4. My brother really likes to watch ...
5. I like shows about ... and ....

## 7. Фильм минутка

**Teacher**-I like to watch music programmes very much when I have free time. It is great because there are a few channels on which we can see music video with subtitles. So now we have the opportunity. Let us sing together.

## 8. Чтение

**Teacher**- Good! This song really entertained us!

**Teacher**- I have prepared some information about television in our life. Now we should read the text.

Be ready to do some tasks.

### TELEVISION

Television is one of the most important mass media. It plays a great role in our life today. All the programmes are now transmitted in colour, but of course they can be received in black and white. We can hardly imagine our life without television. First of all, it is a very convenient source of information. It informs us about current events and the latest developments in science and politics, both in our country and abroad. There are special educational programmes which are very helpful and interesting for children.

Television today competes with cinemas and theatres. You can see different films and theatrical performances without leaving home. Many people consider it much cheaper. Not only that. In some faraway places and small towns people can see the Bolshoi ballet or the performances of the best theatres of the country only on TV.

Our television is linked with Europe and the world through the Eurovision and the Intervision networks, and we can see programmes transmitted from other countries.

### II Can you answer these questions?

1. What role does TV play in our life?
2. Why is TV more convenient for some people than theatre or cinema?
3. In what way is our television linked with Europe and the world?
4. What entertainment programmes can we see on TV?
5. Do you like to watch “soap operas”?

## 9. Работа над дефинициями

**Teacher**-Now let us remind some kinds of TV programmes. Read the definitions and say what it is:

1) A short informative film describing and praising some product. (An advert)

2) A TV programme where people discuss a problem. (a talk show)

3) New information about sports presented in a short TV programme. ( sports news)

4) A programme about weather. ( weather forecast)

5) An intellectual programme with a lot of questions on different topics. (a quiz)

10.Выполнение задания

грамматического

**Teacher-**And now it is time to do some grammar exercises. Last lessons we studied the Present Continuous Tense. There is a grammar quiz on your table. I shall give you 2 minutes to do this exercise.

### 11. Развитие навыков говорения

**Teacher-** Dear students, do you hear who is coming? Oh, it is our favourite Tv host E.Malisheva. Her programme “Healthy Life” is very interesting. I think she wants to say her opinion about advantages and disadvantages.

**Malisheva:** Good morning, dear teachers and students! The theme of your lesson is very actual and interesting. Tv has a lot of disadvantages. It takes a lot of time and it makes us lazy. It is very harmful for our health, especially eyes. Sit far from your TV set. Do not watch TV during your meals.

Do not watch TV more than 1 -2 years a day. Don not be lazy. Be healthy!

**Teacher-**Thank you very much. And now I want you write your own opinions about advantages of TV. Take your sheets of paper and write!

**Teacher-**Your hometask is to do grammar exercise on page87.

### 12.Подведение итогов

**Teacher** -Today we have discussed television and about different TV programs. We have understood that we have different interests and different habits. And TV is one of the most popular means of communication. We have all worked hard and your marks are: excellent and good. I hope you have enjoyed our lesson.
